SUITESTENSA Visit

SUITESTENSA Visit Data Management is the software to manage all diagnostic, administrative and follow-up aspects of the cardiologist specialist and their outpatients and inpatients: from diagnosis to report and discharge letter, including data and images of all examinations performed (hemodynamic procedures, ECG, echocardiography, etc.).

It has the peculiarity of being completely configurable: the fields to be filled in and the related items are closely related to the types of visits that are carried out on a specific site. Through the visit reporting module it will be possible, for example, to prepare specific templates of referral tabs for each type of visit.

Main features:

- High configurability and customization
- Shared clinical history
- Dedicated reports for each type of visit with dedicated iconography:
 - First Cardiological Vist (medical history, physical examination)
 - General Cardiological Vist
 - Specialist Cardiological Visits (Holter, Stress Test, Scintigraphy, Ergometric Test, Tilt Test, Sports Medicine Visit)
 - Follow-up Visits (PM/ICD schedule check)
 - Multidisciplinary Visits (including ECG and/or US examination related to the visit).
 - Other (defined according to site-specific requirements)
- Possibility of attaching previous clinical documents
- Integration with existing HIS systems
