SUITESTENSA Portal

Patient engagement strategies lead to successful clinical and financial outcomes, promote collaboration and communication, and enhance performance quality. Through SUITESTENSA Portal for the web distribution of diagnostic and outpatient examinations, the Patient will be able to access their information from home and from any mobile device, reducing the waiting time for the delivery of the report and reducing the problems related to motor disabilities. Web-based distribution and elimination of CD/DVD printing contribute to staff efficiency and reduced administrative workload.

SUITESTENSA's Patient Web Portal complies with the Prime Ministerial Decree 8/8/2013 (web-based delivery mode of medical reports) and guarantees a safe and secure access to one's own data. It can be used as a stand-alone access to radiology results, or be integrated with other hospital web portals.

Main features:

- Reading, printing and saving of reports
- Imaging that can be downloaded under diagnostic quality (DICOM) or in generic format
- Sharing of reports with other Specialists
- Possibility for the Patient to modify or revoke the management and use of their data at any time, in accordance with the regulations in force.
